Parksite, Inc. Acquires the Assets of L.E. Smith Company, a DuPont Surfaces Distributor

Batavia, IL, February 2, 2010 – Parksite, Inc. announces its acquisition of the DuPont Surfaces distribution assets of L.E. Smith Company, an Ohio based distributor of DuPont™ Corian® and DuPont™ Zodiaq®. The acquisition will be effective February 5, 2010.

Parksite Inc. markets branded and specialty building products throughout the eastern half of the United States representing DuPont™ Tyvek® Weatherization Systems, AZEK Building Products, specialty Cedar, Nichiha Fiber Cement and other building products. DuPont Corian, DuPont Zodiaq, natural stone (granite) and EcoTop are some of the surfaces products available through Parksite.

In May, 2000, Parksite, Inc. purchased Plunkett-Webster, Inc. an east coast based wholesale distribution company specializing in building products, followed by the 2001 acquisition of Metro Sloan Distribution, Pittsford, NY, expanding the Parksite Surfaces geographical territory to include Florida, the Caribbean, northwestern New York and northern Illinois. In May of 2005, Parksite acquired Eastern Distributors Inc, a Philadelphia based building materials distributor. Through acquisitions, the company dates back to 1915, and is at the forefront of the evolving building industry. "Our role in the supply chain goes several steps beyond that of a typical wholesale distributor. We educate industry influencers and the customers of our direct customers, creating pull-through demand for the products that we represent. That demand creation capability allows Parksite to significantly reduce the time it takes for new products to gain market acceptance. *We help build brands,*" explains Ron Heitzman, President of Parksite.

This acquisition is on target with Parksite's strategic plan. "The purchase of L.E. Smith's DuPont Surfaces business assets enables us to expand our territorial coverage of DuPont Corian and Zodiaq to 13 states, including many key markets with significant opportunities," states CEO, George Pattee. "Not only will we be able to better serve our customers logistically, we will be able to offer all customers more diverse product lines in their new regions."

Also, in 2010, Parksite will expand their commercial reach by developing and increasing the deck and railing category, strategizing with key suppliers on innovative building materials and seek future acquisitions. Within the next several years, focus will be on internal and geographical expansion, product diversification, and pursuing new opportunities to achieve their corporate strategy.

A 100% employee-owned company, Parksite firmly believes their success is directly attributable to their employees. According to Pattee, "Every one of our Associates is dedicated to contributing to the success of both our customers and our suppliers. Owners produce the best results with integrity, honesty, and enthusiasm."

Parksite is a sales, marketing and distribution organization headquartered in Batavia, IL. Parksite offers specialized products, training and value-added services to market segments within the building industry. Nationally, Parksite has 12 locations and over 250 employee-owners. More information about Parksite and its products is available at www.parksite.com.
